CCM urged to expand services to FSM

KOLONIA, Ponape - Ponape Gov. Resio Moses urged the Community College of Micronesia to expand its role in serving the FSM in his June 18 address to the 14th CCM graduating class during commencement exercises in the Catholic Mission here.

Moses, a former CCM president, cited the need to upgrade teacher certification and said that "our need for training exists in other areas as well.

in other areas as well.

"Recently, the state budget has had to absord heavy burdens for training abroad sumply because the College of Micronesia has been unable to establish programs reflecting our needs," he said.

Noting that "we all dream of a four-year college, offering professional degrees," Moses said, "I believe very strongly that with sufficient planning and coordination, most of our training needs can be accommodated locally."

The governor said that the state is planning to establish a second high school in fiscal 1985, or 1986, at the latest, which means that "the state will be looking for additional college opportunities for our graduates."

He said that FSM state and national government officials joined him in

Hospital autonomy needed for insurance plan

KOLONIA, Ponape - If the proposed National Health Insurance Plan is to be successful, it will be essential for the state hospitals to have the flexibility to utilize addi-tional revenues from cost claims processed under the according to Budget Officer Del Pangelinan.

The National Health Insurance Committee chairman said that a key objective of the proposed plan is to improve provision of medical and health care within the FSM and reduce the need for much more costly medical referrals outside of the Federated States.

With the national health Falcam said that the FSM care plan, the state hospces rendered to patients

covered by the plan, he said.

In return, the proposed plan will remit back to the hospitals payments for qualified claims, provid-ing the hospitals a more steady and increased cash flow with which to provide improved services.

For the state hospitals to fully benefit proposed plan, i from the proposed plan, it will be essential that the hospitals become more organizationally and financially autonomous, he said.

Such autonomy could be each state hospital having 1) its own governing board of directors, 2) the abil-ity to retain the claims payment revenues it receives and 3) improved internal administration and financial management capabilities, according to Pangelinan.
